Norton, Birmingham B38 9ED

What others say about Wendy:

"Wendy's ability to convey the essence of her autistic world to others is remarkable. As an adult educator, with training in psychology and family issues, Wendy offers a valuable contribution to understanding and working with individuals with Autism Spectrum disorder. Having known, listened to and worked with Wendy, I highly recommend her as an intriguing and interesting speaker who has much to offer professionals and families, to enhance their insights into autism in a humorous and vivid way".

Professor Margot Prior. Royal Children's Hospital, Melbourne.
